The Khamit Institute
Board of Directors

ISAIAH

Dear Family,

I've enjoyed teaching at The Khamit Institute for the past six months. It's been a very fulfilling and uplifting experience. What a wonderful combination of staff, parents and mainly the children. Everyone's been great to me. Although it's been a difficult year, it's been expected. For without challenges there will be no success. Without success there must be a challenge.

Does this mean that as a result of one man's struggles all men shall struggle. Does this mean that as one man stands millions starve. Sacrificing is major to spirituality. Therefore to whom do we sacrifice to and for. Why must we trust man if man who is part of the whole destroys the home, physical and spiritual makeup of another with his cunning, loquacious, and ignorant development. We are to sacrifice to and for God.

Although I may have failed man, I try not to fail God. The supreme Intelligences that Lies within man. Therefore, if everything is God, why is man constantly destroying God as a result of desire to things. As a result of these actions, I am resigning on Friday February 14th, 1997 will be my final day on board. This is on behalf of the Supreme Being. As stated earlier in this letter, I've experienced several changes in education and so have others. However, when the same situations continue to occur they must be corrected. I cannot not do everything alone. No man can.

From experience, I have been in situations where there has been no communication amongst The Board of Directors, Administrative Staff and Teachers. The same applies at The Khamit Institute. Though we have staff meetings every Thursday, the partial truth is being told in a sense of Call and response. I've come to the conclusion that School Choice is another form of Welfare. It allows the criminal to sly and the less fortunate to suffer.

The separation of Church and State is yet another issue. We understand that everything is interrelated. However, this school has nearly benefited the Ausarian family. Things will not be successful if others are overlooked for whatever they may bring to the table. That's something to seriously think about for everyone is one.

As I conclude, I must say "it's been a great experience". You shall see me again!

Peace,

Aneb Sensas-Utcha
William J. Perry.
