1. WHAT ARE THE STRENGTHS OF THIS PERSON?

Bill maintains an enthusiasm and dedication to learning and his students that is unparalleled. He possesses a charismatic appeal on the students and has motivated a great many of them to stretch their horizons and attain heights previously thought unattainable. Bill is a very hard worker and his support at athletic events is greatly appreciated by the students (maybe not by the refs, though!).

2. WHAT DOES THIS PERSON NEED TO IMPROVE ON?

Bill has been presented with some difficult hurdles this year, both personally, health-wise and in the classroom. He has persevered through them. It has been a difficult year of growth in terms of relations amongst the staff also at times. I think we have all benefitted in the end from the open discussion and understanding of perspectives that ensued.

3. OTHER COMMENTS.

I have a great deal of respect for Bill as an educator and person. I know that the students have learned much from him, and I know that I have also. I look forward to continued work together with Bill to benefit the children of UDS.
